Uniqueen H Skin Lightening Cream 100gm In Dubai – Clinically Proven Brightening for Hyperpigmentation & Radiant Skin

Uniqueen H Skin Lightening Cream is a dermatologist-favoured formula that combines hydroquinone, kojic acid, and vitamin C to target stubborn pigmentation, melasma, dark spots, age spots, and post-acne marks. The 100gm tube offers long-lasting use with a lightweight, non-greasy texture that absorbs quickly and keeps skin hydrated — even in Dubai's dry air-conditioned environments. Use a small
amount twice daily on clean skin, gently massaging until absorbed, and always follow with a high-SPF sunscreen to protect your results. Regular use helps fade discolouration, even out skin tone, and bring back a smooth, youthful glow. Now priced at AED 300 (down from AED 350), with cash on delivery and discreet express shipping to Dubai, Sharjah, Fujairah, Umm Al Quwain, Ras Al Khaimah, and Abu Dhabi.
